WORK EXPERIENCE

Product Designer | Owting

San Francisco, CA (Remote) | Contract | May 2025 – Present

- Drove design for the consumer social app's rebrand, reworking core flows and shipping new features including AI-assisted event planning alongside the relaunch.
- Owned features end to end, from scoping through design, engineering handoff, and QA, prototyping in code with AI agents (Cursor, Lovable) and working directly with the CPO throughout.
- Conducted an interaction audit across core flows ahead of the redesign, identifying gaps in states and feedback patterns that set the UX foundation for the rebuild.

Product Designer | Eatsy

San Francisco, CA (Remote) | Contract | April 2025 – Present

- Redesigning reservation management SaaS for 30+ independent restaurants, increasing reservation conversion from 25% to 44% and reducing no-show rate from 44% to 28% within three months.
- Designed the reservation and table management system staff run on the floor, handling the complex seating and timing rules so the booking and assignment flow stays simple to use.
- Grounded design decisions in direct research with restaurant staff and owners, shaping an information hierarchy that kept the interface fast to read during service.

Product Designer | WishMobile

Taipei, Taiwan | July 2022 – July 2023

- Designed a beauty-industry SaaS CRM whose traction drove its acquisition by WishMobile and expansion into new verticals including FMCG and living services.
- Shipped the deposit, stored-value, and prepaid class-pass features as the product saw a 27% lift in new revenue streams and a 17% increase in customer return rate, with adoption by enterprise clients managing 15+ locations.
- Built a customer profiling system surfacing visit history, preferences, and lifetime value, giving merchants a first-party data foundation for segmentation and retention across locations.

UX/UI Designer | V.I.Global Partners

Seattle, WA | June 2021 – June 2022

- Led user research with counselors and students to identify pain points in manual Excel-based workflows, translating findings into requirements for a client management system.
- Designed task management and student overview features through iterative usability testing, working within technical and resource constraints as part of a small cross-functional team.

EDUCATION

Trine University | Master of Business Analytics | August 2023 – December 2025

University of California Davis | Bachelor of Arts in Design | September 2017 – March 2021
