WORK EXPERIENCE

Product Designer | Owting

San Francisco, CA (Remote) | Contract | May 2025 – Present

- Maintained design one sprint ahead of development, ensuring engineering had continuous production-ready specs to build from.
- Conducted interaction audit across core flows ahead of redesign, identifying gaps in states and feedback patterns that defined the UX foundation for v2.
- Introduced app QA testing process adopted by the team, surfacing and reporting bugs to engineering; participated in monthly bug bash sessions to align on fixes and feature prioritization.

Product Designer | Eatsy

San Francisco, CA (Remote) | Contract | April 2025 – Present

- Redesigned reservation management system for 30+ independent restaurants, increasing reservation conversion from 20% to 53% and reducing no-show rate from 44% to 28% within three months.
- Designed operational features including time slot logic, table auto-assignment, and real-time seating, translating complex scheduling rules into staff-facing workflows.
- Translated user research findings into UX decisions that prioritized clarity and information hierarchy across the product.

Product Designer | WishMobile (following acquisition of Oh!Bot)

Taipei, Taiwan | July 2022 – July 2023

- Led design for cross-industry platform expansion post-acquisition, defining vertical-specific flows for appointments, subscriptions, and loyalty.
- Designed deposit and marketplace features for 1,200+ beauty businesses reducing no-shows, driving 1.5× booking growth and 27% revenue increase, and enabling upfront revenue capture through prepaid bundles adopted by enterprise clients managing 15+ locations.
- Built customer profiling system surfacing visit history, preferences, and lifetime value, giving merchants a centralized foundation for personalization and retention across locations.

UX/UI Designer | V.I.Global Partners

Seattle, WA | June 2021 – June 2022

- Led user research with counselors and students to identify pain points in manual Excel-based workflows, translating findings into requirements for a client management system.
- Designed task management and student overview features through iterative usability testing, working within technical and resource constraints as part of a small cross-functional team.

EDUCATION

Trine University | Master of Business Analytics | August 2023 – December 2025

University of California Davis | Bachelor of Arts in Design | September 2017 – March 2021
